Allowable Subject Matter

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not teach or suggest a recording medium comprising multiple recording layers formed of the claimed composition (Te-O-M) where the oxygen content of the recording layer closest to the incident light is greater than the recording layers farther from the incident light. The art submitted in the IDS dated August 26, 2008 includes the priority documents from two US patents that were previously made of record (US 6,610,380 and US 6,768,710). Neither document discloses varying the oxygen content of multiple recording layers. The third document, JP-2002-050053, does not disclose multiple recording layers formed of the Te-O-M material or disclose varying the oxygen content of recording layers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth E. Mulvaney whose telephone number is 571-272-1527. The examiner can normally be reached on Monday-Friday 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on 571-272-1398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
